# **Practice Exercise - Two Slot Gasket**

## Section 2 – Intro to Sketching, Suggested Outline: Beginner to Certification

## Summary:

In this exercise, a part file is provided which requires the sketches of the features to be edited and defined using dimensions and constraints. The features will update when the sketches are edited.

#### Reference Lessons:

- Geometric Relations
- <u>Dimensions</u>
- Editing Geometry

### **Instructions:**

- 1. Download and unzip the part files <u>here</u>.
- 2. Open the part file "Two Slot Gasket.sldprt".
- 3. Make changes to the geometry so that the part matches the image shown below.
